

ePN / RamQuest INTEGRATION

The right eRecording partner can offer countless benefits!

eRecording offers your business big benefits! With eRecording, you can process documents in minutes instead of weeks by electronically facilitating your recording. With the ePN and RamQuest integration it is easier than ever to bring this technology to your title and settlement operation.

With ePN, RamQuest customers have access to innovative benefits in addition to traditional eRecording benefits.

You can take advantage of:

- Seamless integration to your RamQuest production solution
- Tools for ALTA's Best Practices Pillar #4 compliance
- Improved document security
- Enhanced document tracking with eRecording
- Expedited delivery of documents
- Reduced data entry time with file information auto-populated from RamQuest
- Immediate data exchange and your RamQuest solution is updated as documents are processed at the county
- Documents are returned directly into your RamQuest solution

Innovative Features:

Status Rules – The ability to set up basic workflow prompts in your RamQuest solution and then receive detailed information from ePN about the status of every one of your recordings.

Track Collected vs Actual Recording Fees – ePN has a Collected Fees Report that allows you to track fees collected on the Closing Disclosure against the actual fees for recording your documents.
