

# Integrated Document Recording Solutions

Since our founding, eRecording Partners Network (ePN) has focused exclusively on overcoming challenges in the document recording industry.

## What We Do

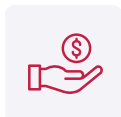

ePN offers a variety of recording solutions designed to meet the needs of title agents, settlement providers, attorneys and other document submitters. With our range of services, we can offer document recording in all jurisdictions across the country.

We take this a step further by offering top-tier software integrations and a team of highly experienced and supportive staff members.

## Why Go ePN

**Unique Integration Features**

**Actual Fees vs. Collected Fees Reporting**

**No Software Installation**

**ALTA Elite Provider Since 2016**

## Our Solutions

### Traditional eRecording Solution

- eCourier is our web-based submitter application. Used to submit documents for eRecording.
- Includes integration with several title production systems: RamQuest, E-Closing, SoftPro, and more.

### Outsourced eRecording Solution

- ePN will handle the submission of your electronic recordings.
- Ideal if your staff is limited or you want to focus their efforts on other parts of the post-closing process.

### Paper Processing Solution

- Critical for counties not accepting electronic documents.
- ePN can help with: Delivery, tracking and confirmation of paper-based recordings.

### Integrated Recording Solution

- Industry-leading integrated document record system.
- Single interface to track both electronic and paper recordings.
- No need to look in multiple places or combine records to see the entire document recording status.
